Required Communications

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication With Those Charged With Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the financial statement audit, as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial reporting process.

Area	Comments
Our Responsibilities With Regard to the Financial Statement Audit	Our responsibilities under auditing standards generally accepted in the United States of America have been described to you in our arrangement letter dated July 26, 2018. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities, which are also described in that letter.
Overview of the Planned Scope and Timing of the Financial Statement Audit	<p>We have issued a separate communication dated July 26, 2018, addressed to Mr. Paul Ballard, CEO of Texas Treasury Safekeeping Trust Company, regarding the planned scope and timing of our audit and have discussed with him our identification of, and planned audit response to, significant risks of material misstatement.</p> <p>As described in Note 1 to the financial statements, the financial statements present only the TexPool investment trust fund and do not purport to, and do not, present fairly the financial position of the State of Texas as of August 31, 2018, and the changes in its financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America. Our opinion was not modified with respect to this matter.</p>
Accounting Policies and Practices	<p>Preferability of Accounting Policies and Practices Under accounting principles generally accepted in the United States of America, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice.</p> <p>Adoption of, or Change in, Accounting Policies Management has the ultimate responsibility for the appropriateness of the accounting policies used by TexPool. A summary of the significant accounting policies adopted by TexPool is included in Note 1 to the financial statements. There has been no initial selection of accounting policies and no changes in significant accounting policies or their application during the year ended August 31, 2018.</p> <p>Significant or Unusual Transactions We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.</p> <p>Management's Judgments and Accounting Estimates Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached Summary of Significant Accounting Estimates.</p>

Area	Comments
Audit Adjustments	There were no audit adjustments made to the original trial balance presented to us to begin our audit.
Uncorrected Misstatements	We are not aware of any uncorrected misstatements other than misstatements that are clearly trivial.
Disagreements With Management	We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit or significant disclosures to be included in the financial statements.
Consultations With Other Accountants	We are not aware of any consultations management had with other accountants about accounting or auditing matters.
Significant Issues Discussed With Management	No significant issues arising from the audit were discussed or the subject of correspondence with management.
Significant Difficulties Encountered in Performing the Audit	We did not encounter any significant difficulties in dealing with management during the audit.
Significant Written Communication Between Management and Our Firm	A copy of a significant written communication between our firm and management of TexPool, the representation letter provided to us by management, is attached as Exhibit A.

Summary of Significant Accounting Estimates

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses its knowledge and experience about past and current events, and certain assumptions about future events. Management may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in TexPool's August 31, 2018, financial statements.

<u>Estimate</u>	<u>Accounting Policy</u>	<u>Management's Estimation Process</u>	<u>Basis for Our Conclusions on Reasonableness of Estimate</u>
Fair Value of Investments	<p>TexPool meets the criteria of Governmental Accounting Standards Board Statement No. 79, <i>Certain External Investment Pools and Pool Participants</i>, and as such, measures investments at amortized cost. However, the fair value of investments is required to be disclosed in the footnotes to the financial statements.</p> <p>Investments are priced daily by the custodian and fair values are compared to carrying values. Because the pool's goal is to maintain a net asset value (NAV) of \$1.00, if the ratio is less than 0.995 or greater than 1.005, TexPool will sell investment securities, as required, to maintain the ratio at a point between 0.995 and 1.005.</p>	<p>The fair value of mutual funds is determined using the NAV as reported by the fund and is classified as Level 1 of the fair value hierarchy.</p> <p>Debt securities and repurchase agreements classified as Level 2 of the fair value hierarchy are valued using other observable significant inputs, including but not limited to, quoted prices for similar securities, interest rates and a fixed-income pricing model.</p>	<p>We tested the fair value of the investments by verifying the NAV or fair value with published sources. We concluded the valuation methods and estimates are reasonable.</p>
